Meaningful Use Objective	2011 Standards		2014 Standards	
	Element	Measure	Element	Measure
Patients who request an electronic copy of their health information (e.g., problem list, diagnoses, diagnostic test results, medication lists, allergies) receive it within three business days	1C.1	50% of patients who request	1C.1	50% of all patients seen have online access within 4 business days
Patients have electronic access to their current health information (including lab results, problem list, medication lists and allergies) within four business days of when the information is available to the practice	1C.2	10%	1C.1	50% - increase 40%
Patients view and are provided the capability to download their health information or transmit their health information to a third party.	N/A	Not part of MU stage 1	1C.2	NEW - 10%
Clinical summaries are provided to patients.	1C.3	50%, within 3 business days	1C.3	50%, within 1 business day
A secure message was sent by patients.	N/A	Not part of MU stage 1	1C.4	NEW - 5% of patients
Record all of the following demographics: Date of birth, Sex, Race, Ethnicity, Preferred Language	2A	50%	3A	80% - increase 30%
Up-to-date Problem list with current and active diagnoses	2B.1	80%	3B.1	80%
Allergies, including medication allergies and adverse reactions,	2B.2	80%	3B.2	80%
Blood pressure, with the date of update, for patients 3 years and older.	2B.3	80%	3B.3	80%
Height/Length	2B.4	50%	3B.4	80%- increase 30%
Weight	2B.5	50%	3B.5	80%- increase 30%
BMI (for 2014 standards, just need to show system capability to calculate and display)	2B.6	50%	3B.6	N/A
System plots and displays growth charts (length/height, weight and head circumference) and BMI percentile (0-20 years) (for 2014 standards, just need to show system capability to plot and display)	2B.7	50%	3B.7	N/A
Status of tobacco use for patients 13 years and older	2B.8	50%	3B.8	80%- increase 30%
List of prescription medications with date of updates for more than 80 percent of patients	2B.9	80%	3B.9	80%
Reviews and reconciles medications with patients/families for more than x% of care transitions	3D.1	50%	5C.2	80%- increase 30%
Generates and transmits eligible prescriptions to pharmacies	3E.1	40%	4D.1	50%- increase 10%
Uses an EHR to identify patient-specific education resources and provide them to more than 10 percent of patients.	4A.2	10%	4E.1	10%
Electronically incorporates clinical lab test results into structured fields in medical record.	5A.9	40%	5A.9	55%- increase 15%
Providing an electronic summary of care record to another provider for more than 50 percent of referrals.	5B.7	50%	5B.7	50%
Provides an electronic summary-of-care record to another care facility for more than 50 percent of patient transitions of care.	5C.8	50%	5C.7	50%
