

PCC's Dashboard has the ability to easily generate a list of patients overdue for the following chronic/acute care condition:

- ADHD patients overdue for followup visit

Here is a Dashboard screenshot example showing the percentage of patients with ADHD who had an office visit in the past six months, and a list of patients who are considered overdue.

PCC's recaller report can be used to identify patients with the following conditions overdue for services:

- Asthma patients overdue for checkup
- Patients with depression overdue for checkup
- Patients with obesity overdue for checkup
- Patients with allergic rhinitis overdue for checkup

Additionally, PCC EHR Clinical Quality Measure (CQM) reports include the ability to report overdue patient listings for the following chronic/acute care services:

- Followup Care for ADHD Patients
- Asthma patients in need of medication checkup

Here are examples of these CQM reports found under the “Reports” menu in PCC EHR:

Measure#	NQF	Measure	Numerator	Denominator	Performance Rate	Exclusions	Exceptions	Details
CMS136v4	0108	ADHD: Follow-up Care for Children Prescribed Attention Deficit/Hyperactivity Disorder (ADHD) Medication	N/A	N/A	N/A	N/A	N/A	N/A
		Initiation Phase	6	50	67%	41	N/A	Details
