Urinalysis Ordered

TO: alice

Last Saved by magda

Ordered by matilda

Facility Wishing Well Pediatrics

Order Date: 05/09/11

Results:

pH: 4.2 pH units (Normal: 7.0) Interp:

Glucose: positive (Normal: negative) **Interp: Abnormal**

Protein: negative (Normal: negative) Interp: Normal

Leukocytes:

Nitrite:

Urobilinogen: 16

Blood: negative (Normal: negative) Interp: Normal

Specific Gravity: around .5 G's (Normal: under 2 G's) Interp: Normal:

Ketone: positive (Normal: negative) **Interp: Abnormal**

Color: purple (Normal: yellow) Interp:

Clarity: murky (Normal: crystal clear) **Interp: Abnormal**

Glucose: 140.3 ml/ft (Normal: 110.0-250.3) Interp: Normal

Bilirubin: negativ (Normal: negative) Interp: Normal

Condition/Disposition: tattered

Note: I am not sure what to make of these results. I'll order more tests to be sure. [smiley]

Signing Note 1: These are the notes I wrote when I was signing this order. [michael]

Signing Note 2: These are the notes I wrote when I reviewed your work and signed as well. [smiley]
