

Factor 3: Gives the patient/family a written plan of care

You can print a patient's Care Plan from PCC EHR, choosing whether to include only active interventions (vs all interventions) and attached documents. The printed Care Plan includes documented goals, actions, next steps, and team members.

Pebbles Flintstone

DOB: 01/15/04
Sex: Female
PCC #: 3336

Scheduled Visits:

None

Date of Last Physical:

01/22/2013

Care Plan**Goals**

Asthma Action Plan

Status: Active**Actions**

Management of compliance with medication regimen
Asthma management

Next Steps

Pebbles was shown at her last visit how to use her inhaler and she has been carrying it with her during basketball practice and games. She hasn't had an attack during a game in the last three weeks.

Scheduling asthma follow up appointments every three months for the next year. These follow up appointments will be to check on her medication and to discuss any new issues she may be having.
